FUTURA CRICKET ACADEMY | INDIA TOUR 2025

PLAYER REVIEW – ETHAN CURRIN

Elite Cricketer | Tour Captain

Ethan,

I want to begin by saying how incredibly proud I am of you. As our captain on this tour, you carried a huge responsibility, and you did so with composure, intelligence, and genuine care for your teammates. You led from the front — not just through your own performances, but in the way you handled the group, communicated under pressure, and managed the challenge of uniting a squad made up of players from different age groups and skill levels.

That's not an easy job, but you made it look that way.

Your leadership style — calm, thoughtful, and quietly assured — earned the respect of every single player and coach. You created an environment where others felt supported, seen, and part of something bigger than themselves. That's what real leadership looks like, and you embodied it every step of the way.

On the field, you reminded everyone that you are a *gun* batsman & bowler. Once again, you delivered with the bat, proving your quality and class in every situation. Please hear me clearly when I say this: do not let anyone — or any team — ever talk you out of batting in the top 7. You've earned that spot and more. Anything less is not just a mistake — it's a disservice to the player and person you are.

Thank you for being the captain, the teammate, and the person that you are. You give 500% in everything you do, and that is something rare and deeply appreciated. You made this tour memorable for all the right reasons.

Now, as you head into your season in the UK, I want to wish you nothing but success. Keep leading, keep believing, keep squaring batters up and never stop backing yourself.

Go well & thank you, Ethan. We're all behind you.

With great respect,

Paddy Steytler

Head Coach & Director
